Eco-friendly Clay Vinayaka distribution

30-08-2022

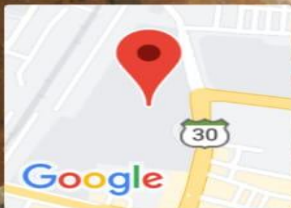

Summary:

In view of celebration of Vinayaka Chavithi festival, Department of Botany and Eco Club distributed clay Vinayaka idols and exhibited 21 types of Patri, their names and medicinal properties used in Vinayaka Chavithi on 30-08-2022. This program was undertaken on a large scale to create awareness among the students and lecturers about pollution control and environmental protection. Dr. B. Manohara Reddy, eco-club coordinator has given awareness among the students about the uniqueness of the sacred leaves used in Ganapati Puja and importance of their conservation in protecting nature. Eco- club members, Dr. P. Amrutha Lakshmi, Dr. D. Raghu Ramulu and botany faculty Dr. E. Sreedevi and M. Vishnu Priya, gave cooperation and support in making clay vinayaka idols and in the preparation of charts depicting the medicinal importance of holy leaves used as patri. Competitions were held among the students in making clay Vinayaka idols and prizes were also distributed. All the students actively participated in this program and this innovative program was applauded by the Principal, Dr. A.C.R. Diwakar Reddy. Maqbul Hussain, Additional Principal, Achuthananda, NAAC Coordinator and staff members from various disciplines congratulated and gave prize money to the students who participated and won prizes in the clay Ganesha idol making competitions.
